About Us.

Pure Foods Ingredients Pvt. Ltd.

A dependable bridge between origin and opportunity.

Pure Foods is a global supply merchant, not a manufacturer. We connect buyers with dependable ingredient supply from India and across our wider partner network, with a focus on dehydrated onions, garlic, fried onions, vegetables and spice powders.

Our sourcing approach follows the product from variety and raw-material selection through hygienic processing, testing, packing and documentation. This gives buyers one informed point of contact for product forms, mesh sizes, moisture specifications and commercial requirements.
Our network serves food manufacturers, distributors, foodservice buyers and private-label customers looking for consistent ingredients and responsive international supply.

Our Product Range

Dehydrated White Onion

Mature white onions, washed, trimmed and dehydrated by forced hot-air convection in a closed, continuous system. Used in dry soup mixes, sauces, canned and frozen vegetable mixes, casserole and stuffing mixes, and foodservice kitchens.

Dehydrated Pink & Red Onion

The same forced hot-air drying process, tuned to preserve the deeper colour and sharper bite of pink and red onion — ideal for seasoning blends, snack coatings and ethnic food preparations.

Dehydrated Garlic

Fresh garlic, washed, trimmed and hot-air dried into a shelf-stable ingredient that drops straight into most recipes, or blends easily with salt, pepper and other seasonings.

Fried Onion Range

Golden, crisp fried onion in coated, dehydrated and fresh-fried forms — a finishing touch for snacks, instant noodles, biryani mixes and savoury toppings.
